EDUCATION

SHIVALIK COLLEGE OF ENGINEERING, DEHRADUN

Bachelor's Degree - Computer Science and Engineering

Aug 2024 – Jul 2028

Dehradun, Uttarakhand

GURU NANAK MISSION PUBLIC SCHOOL, PAONTA SAHIB

Senior Secondary Education (Class XII)- 80%

Apr 2023-May 2024

Paonta Sahib, Himachal Pradesh

GURU NANAK MISSION PUBLIC SCHOOL, PAONTA SAHIB

Secondary Education (Class X)- 84

Apr 2021-May 2022

Paonta Sahib, Himachal Pradesh

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, TypeScript, MySQL

Technologies/Frameworks: React, Next.js, Express, PostgreSQL, MongoDB, Firebase, Docker

Tools: Git, GitHub Actions, Vercel, Postman, VS Code

Core Competencies: Data Structures and Algorithms, Object-Oriented Programming

PROJECTS

TaskManager RL Environment | [GitHub](#) | [Hugging-face](#) | **Python, RL, FastAPI, Docker, OpenEnv**

- Engineered a reinforcement learning environment for automated task scheduling and prioritization, modeling software development workflows with dynamic deadlines and resource constraints.
- Built a scalable Dockerized environment with REST and WebSocket interfaces, featuring custom reward functions to optimize business impact and minimize SLA violations.

Data Wash RL Environment | [GitHub](#) | [Hugging-face](#) | **Python, Reinforcement Learning, OpenAI Gym, Pandas**

- Developed an RL-based dataset cleaning environment that enables intelligent handling of missing values, duplicates, outliers, and inconsistent data through automated decision-making.
- Designed a custom reward mechanism and environment simulation to optimize data quality, reducing manual preprocessing effort and improving dataset reliability for machine learning workflows.

MedCare – AI-Powered Healthcare Platform | [GitHub](#) | **Next.js, MongoDB, Node.js, Express, AI APIs**

- Developed a full-stack healthcare platform integrating AI-powered health assistance, mental wellness support, and secure patient data management for rural and underserved communities.
- Designed features including AI symptom guidance, mood tracking, emergency SOS support, healthcare resource discovery, and role-based access control, focusing on accessibility and user-centric healthcare delivery.

COURSEWORK

- | | | |
|----------------------------------|-------------------------------|------------------------|
| • Data Structures and Algorithms | • Database Management Systems | • Discrete Mathematics |
| • Object-Oriented Programming | • Software Engineering | • Pattern Recognition |
| • Probability and Statistics | • Machine Learning | |

ACHIEVEMENTS

- Lead a team at **HACK ON HILLS 2025** organized by NIT HAMIRPUR for the project on Innovation healthcare technology solution
- Secured 4th Position in the **AI for Social Good Hackathon** organized by Indian Institute of Technology Ropar.
